WILL

The late class of '46 hereby bequeaths its remaining possessions (that is, those which the irate faculty have not already conjugated) to said fortunate, or otherwise, persons:

To Mr. Chase, Mr. Lord, and Mr. Thurston we leave our eternal gratitude for not expelling us on any of the many occasions on which we gave them opportunity.

To Mrs. Smith we leave the honour of being the teacher to whom we are most indebted with our congratulations for having stuck it out six years. Cheer up, you're getting rid of us now.

We leave Mr. O'Neil an axe to prove his Lincoln like strength.

We leave Miss McCarthy a little black book because she has used up her old one on us.

To Miss Hulbert we leave a pair of bobby socks.

We leave Miss Marr a study hall (of boys).

We leave Miss Stephens a French grammar.

To Mr. Dickerman we leave some atom gas for his limosine.

To Miss Brimmer a new method of shorthand that is easy to teach.

We leave Miss MacQuarrie a package of gum to see if she can resist the temptation of chewing it in class.

We leave Miss Montague a piano.

To Miss Whiting we leave a basketball.

To Miss Keady a supply of thermometers and tongue sticks.

We leave Miss Moody a book of passes.

To Mr. Bader we leave athletes who stay in training.

To Miss Keenan we leave a copy of the constitution to aid her failing memory.

We leave Mr. Sarris a lock from Einstein's hair.

The private gifts of students who are spring housecleaning are these:

Wini Watson leaves her boredom with school to Sue Moore. (Does she need more?)

Ruth Hoffman leaves her poise to Joan Finlay.

Flossie Gehling leaves her wit (or is it wits?) to Margie Mulverhill.

Mabel Packard leaves the Marine Corps with one exception.

Lois Mace leaves her beautiful blond tresses to Betty Feaver complete with comb and mirror.

Gwynne Very leaves her dogged determination to anyone who is willing to use it.

Rosemary Burnett and Catherine Ryan leave their comradeship to Louise Reese and Smitty.

Ruth Kennedy leaves her petiteness to her sister Jean.

Janice Goodrich leaves her art ability to Allan Blizzard--not that he needs it.

Jean Brown leaves her popularity to Nancy McLaren and her red plaid slacks to anyone who has the courage to wear them.

Peggy Jefferson leaves her beauty to Jean Goodwin.

Nancy Hamblen leaves her bangs to Elaine Bigelow.

John Hopkins leaves his hours in shop to Joe Hay.

Tony Campenella leaves her genius to anyone who gets all A's every year.

Art Harris leaves his athletic ability to Art Bent.

Lee Phillips leaves his popularity to John McGilly.

Joe Vaux leaves his ability for taking pictures to anyone who can get the flash bulbs.

Jeanne Hanlon leaves her active participation in class affairs to anyone who would have the courage to step into the Senior class play at such a short notice.

Bev. Webster leaves her vivaciousness to Nancy Updegraph.

Larry Perkins leaves his editorship to Fred Close.

David Alcott leaves his good looks to Allan Blizzard.

Bessie Hale leaves her good-natured helpfulness to anyone who is that useful.

Maureen Powers leaves her Irish temper to Eileen Johnson.

Lulu Kierman leaves an advanced copy of Vogue to Fay Roberts.

Billy Carlson for some strange reason leaves out his Junior year.

Roy Crocker leaves a table of Logarithms to Mr. Sarris.

Charles Mitchell leaves his wit to Snuffy.

Paul Scoble leaves a cook book (by himself) to Miss Moody.

Hunter Bagley and Robert Anderson just leave again.

PROPHECY

Despite atomic bombs bursting and volcanoes erupting, the survivors of the Class of '46 find life quite normal in 1956. Bombs are nothing compared to their vigorous existence in Westwood High School, while the volcanoes have a striking resemblance to some of the teachers.

No one is the least bit surprised to see that Janice Goodrich is sketching her lively twins in sailor suits as she hums "Bell Bottom Trousers."

Mabel Packard makes a mighty cute farmerette on Allen's Vermont Farm. They take all the prizes at the county contests for their square dancing.

Beverly Webster just received her "Oscar" for being the best sultry movie star of 1956.

Barbara Ashcroft is reputed to be the best nurse in Cushing General Hospital. She gives her victims practical demonstrations in the laws of physics. (Don't you wish you were there, Mr. Dickerman?)

The Postmaster General demands a draft for more mailmen to handle the heavy mails between the United States and Hawaii.

Westwood High is now rated the best school in Massachusetts. This fact is due to Bessie Hale's efficient reforms. She even teaches Greek.

We find Maureen Powers the matron of a mouldy castle in Ireland. She disciplines her ten children by heaving books at them. (Got practice in Physics Class, didn't you Maureen?)

Jeanne Hanlon and Jean Brown have made a new United States flag because they believe that variety is the spice of life. (They ought to know!)

Gwynne Very disappeared while climbing a mountain. Her ghost has been seen by various members of the

Class of '46, wandering about in the sacred portals of Westwood High School.

Lively John Hopkins is now training commandos. We like to think that he gained his skill on Westwoods' Superior Commando Course.

Louise Kierman, who always set the styles for our class, is now the world's most famous fashion model. Bill Carlson is her managing agent, and it could be that his artistic abilities have something to do with her success.

Our musician, Mlle. Tony Campenella, is now on a tour of Europe. The reports indicate that she caused quite a sensation in Paris, being the only American to set foot on La Belle France who can speak French without having a cold at the same time.

When handsome Dave Alcott drives by, the gals still swoon; but we can't tell what it is that causes such rapture - the car or Dave.

Lois Mace's beautiful golden tresses are slowly turning grey - the reason being that she has just returned from Reno for the fifth time and is on the loose again. (She still can't make up her mind, can you Lois?)

If we want to travel all the way to Egypt we'll find Lee Phillips - and this time with a harem of his own. He says it's the only life for him.

Could that be Larry Perkins dashing through the wilds of New Hampshire with a skunk on his heels? Or maybe it's the other way around!

Flash! Charlie Mitchell, the great detective, has at last found Art Harris, who, it is said, had engine trouble on his trip to Mars in a rocket ship, crashed, and wasn't heard from for four short months.

Joe Vaux is now photographer for Esquire Magazine and says he finds the job quite interesting. But I should think it would be rather dull photographing the latest in men's suits.

Ruthie Kennedy can be seen almost anytime with her cap pulled over her eyes, coat collar turned up

and dragging behind her a brief case containing a gun and black jack belonging to her boss, "The Great Charles Mitchell."

In her beauty shop Flossie Gehling just gave a permanent but she got to talking so fast and furiously that she didn't notice anything until the woman, upon looking at herself in the mirror, screamed bloody murder. Now Flossie's on her way to buy a wig for her ex-customer.

Our attractive Ruth Hoffman has acquired fame by discovering an antidote for chicken pox so future generations won't have their beauty marred by pox marks.

A successful chain of laundries has been started by Nancy Hamblen, their slogan being, "As Little Work as Possible."

Peggy Jefferson is trying to pursue an active career but is hindered by the swarms of active men that pursue her.

Thunderous applause greets the Burnett and Ryan Act as they introduce their new routine on roller skates up at Roll-Land.

Roy Crocker is now an Admiral in the Navy - he achieved this promotion because of his new revolutionary way of plotting courses.

Paul Scoble is a typical sailor, pursued by a stream of admiring girls-much to his consternation.

Hunter Bagley and Robert Anderson are the most promising orators in the Senate; their present debate promises to be as historic as the Lincoln-Douglas debates.

Wini Watson was so shocked to find that she was out of school and free that she had a nervous breakdown and is in a sanitarium.

HISTORY

The fall of 1939 was indeed a time of rejoicing for the class of '46. We didn't start school until October because the new high school wasn't finished. When we started we found that we knew just as much as the Seniors. Boy! did we feel big! Our classes were enlivened by the continued stream of architects and carpenters parading through the school with Mr. Chase to view its imperfections. Thus our years in the seventh and eighth grades passed quickly with our many social affairs along with the struggle to complete our homework. This was our first year to experience homework.

In September 1942 our Freshman year opened under the new superintendent, Mr. Eaton, who has remained with us through these four years. Mr. Lord was our principal and Miss MacQuarrie and Miss Brimmer were our staunch supporters of parliamentary procedure at those uproarious class meetings.

The main event of the year, that masterpiece of super acting, "The Taming of The Shrew", was presented under the capable direction of Mr. Osterman.

In the Sophomore year, our never-to-be forgotten professor, Mr. Sarris, came to us. On his first day here he proved to be a source of shock and amazement by his "Hitleritic" harangue through Room 210, while Mr. Brann, Mr. Sarris's right hand man, took over the other half of our class in 212.

While Coach Butler did his best to pull us thru that unending course of Plane Geometry, Miss Brimmer tried in vain to teach us the difference between debits and credits.

Mr. Bader was our home room teacher in our Junior year, which was one of many changes.

Westwood High lost to the service, Robert Brooks Robert Carr, Rawland Cresser, Bill Turner, Alfonse Wayshville, and Chipman Westhaver.

The greatest part of our time was spent balancing chemical equations under Mr. Osterman, or trying to figure out what the scrawling called shorthand could possibly stand for.

After Mr. Osterman left us we heralded the coming of Mr. Dickerman.

Finally our Senior year opened under the faithful guidance of Mr. Thurston, who has been an inspiration to accomplishment. Mrs. Smith was our untiring home room teacher and efficient coach of our Senior play.

The latter part of the year was a time of great effort for those half dozen followers of Euclid who spent many hours of the night wondering if it were really true that a straight line could be drawn thru two points.

Due to Mr. Thurston's aid, the publication of the Nahatan News was again resumed successfully.

Again we lost more boys to the service: Roy Crocker, Edwin Hanlon, Donald MacCauley Grant, and Paul Scoble.

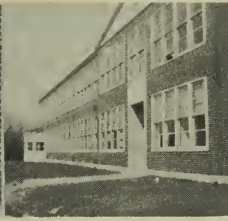

With the ending of six years' stay in Westwood High School, we are recognized as the first class to go all the way through from the 7th to the 12th grades. During this time we have finished off one superintendent, two principals, three shop teachers and five French teachers. Quite a record, "eh!" We are also the first class to attempt the tremendous undertaking of a year book.

With the above confessions we leave you with the hope that the rest of the years of our lives will be as eventful and hilarious as the past six of inspiration to all those who inhabit the corridors of dear old Westwood High.

SCHOOL SONG

Let us sing a song for Westwood
For the school we love so well;
Give a cheer for grand old Westwood,
Let the mighty chorus swell.
Sing her praise forever glorious,
Make her fame ring out with might,
Let us sing and shout 'till the hills ring out
"Good old Westwood, green and white."

We will sing our love for Westwood
And be proud her name to bear;
We will love to bring her glory
And her honors gladly share.
Sing with all your might for Westwood,
Let us all her praise proclaim
Make it loud and long, while her sons prolong
Good old westwood's honored name.

CLASS OF 1946

This was the year for freedom--
You know just what I mean.
We're Seniors! and nowhere under the sun
Can a jollier gang be seen.

Our Senior year has been wonderful
With play and banquet and all.
We'll find it strange, exciting, and new
Not going back in the fall.

Of course we're sorry to leave you,
Good old Westwood High.
But there's no use in grieving
When parting time draws nigh!

So here's to good old Westwood.
To the teachers thanks we give.
We wish you the best of everything;
We'll be grateful as long as we live.

Nancy Hamblen
